

# SERIES MEX

## MAXIMUM RESISTANCE

High power and low consumption

To satisfy all your needs, we have created a maglock that uses the least amount of power possible without losing any holding force. It comes with an integrated timer, and most models come with a standardized automatic voltage detection system (12-24V AC/DC)

Our vandal protection secures your maglock against external tampering. This ensures that the lock cannot be manipulated, removed or stolen.

**MEX500/530**  
5.000 N Holding force

**MEX600/630**  
2.800 N x2 Holding force

**MEX400/430**  
2.800 N Holding force

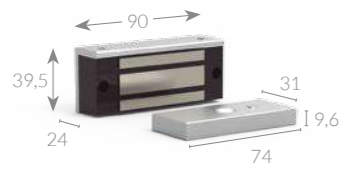

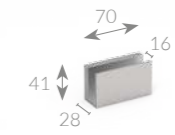

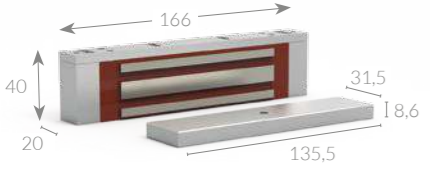

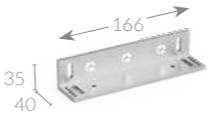

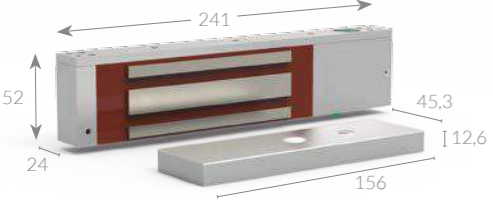

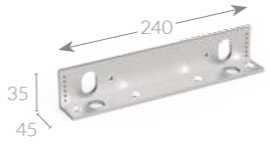

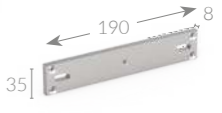

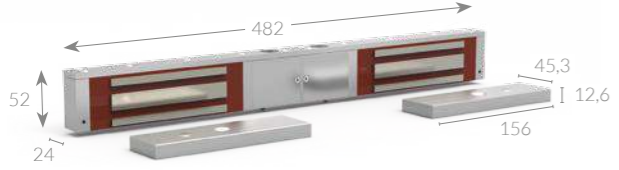

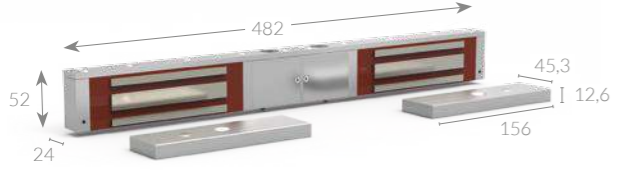

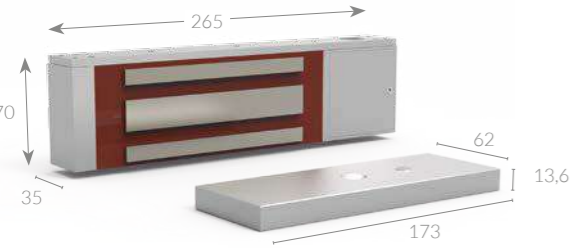

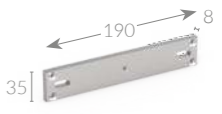

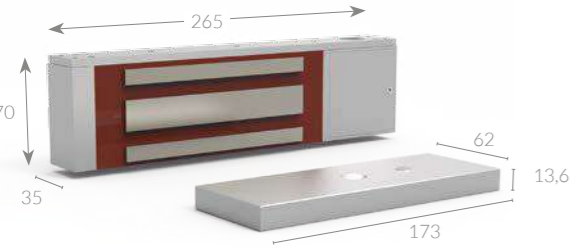

**MEX100**  
1.800 N Holding force

**MEX70**  
500 N Holding force

### Our smallest and our strongest

Tiny MEX70 has been specially designed to keep your closets, drawers and showcases properly locked.
